A New "KENT POWER" Detective Story by BENGE ATLEE

"The Girl or the Car" A Mobiloil Movie with **CLARK GABLE & UNA MERKEL**

Clark Gable now co-starring with Jean Harlow in M.G.M.'s "Hold Your Man"

Una Merkel now featured in Metro-Goldwyn-Mayer's "Lady of the Night"

1 ME: "Five bucks for that lunch. When are we going to have you out?"

2 GABE: "Had you let a guy that lovely with watch I'd be you drunk."

3 GABE: "Look, look it beautiful. We're just here to make the picture."

4 ME: "Hugger at the first inspection? I'd just enough money before you get me and that fact!"

5 ME: "Oh, look even the crowd. You could buy some of that about it. Then profit at least \$4,000 to get me a wife!"

6 ME: "Lemme, little girl. This car's got to keep rolling for a couple of years more. You don't know, no way, anything but Mobiloil!"

Today's speeds give oil double the beating it took 3 years ago. That's why you need Mobiloil. Ordinary oils break down. If you are using ordinary oil the chances are 10 to 1 you are paying more for oil per year than you would if you used Mobiloil. In addition you risk expensive repairs and shortened car life.

THE ORGANIZATION, with its headquarters at Hamilton, Ont., its truck factory at Chatham, Ont., and its many Company-owned sales and service branches, is permanently established in all sections of the Dominion. Seasoned Harvester employees by the thousands live in and spend their money in the nation's cities and towns. The buying power of this corporation and its workers furnishes a tremendous market for the products of the manufacturers, merchants, and dealers served by International Harvester equipment.

All of these facts point to the importance of Harvester's place in the everyday life of the nation. But they have a more direct, personal interest for the man who buys motor trucks. They make clear why and how every International Truck is permanently protected in its daily work by conveniently placed Company-owned service stations.

Give thought to your own truck problems now . . . and give the nearby branch or International Truck dealer an opportunity to show you the ease, comfort, low-priced trucks featured by International Harvester. Callings will be sent on request.

HALF A MILLION LOBSTERS

By ROLAND H. SHERWOOD

Best: Scams from the fishing lobsters, plant at Bay View, N.J.

LOBSTERS LIVE SOBERLY. They laze about in pairs, or at the most in a family of three. They eat, they drink, they sleep, they mate, they grow, they reproduce, they die. They are not, as the lobster fishermen of the Bay View, N.J., say, "a lot of trouble." They are, in fact, a lot of trouble. They are a lot of trouble to the lobster fishermen of the Bay View, N.J., who are a lot of trouble to the lobster fishermen of the Bay View, N.J.

Which, this one page with a web, cannot, due to the limited of the lobster, but the lobster fishermen of the Bay View, N.J., say, "a lot of trouble." They are, in fact, a lot of trouble. A lobster man has just arrived at his own net, and he is a lot of trouble. He is a lot of trouble to the lobster fishermen of the Bay View, N.J., who are a lot of trouble to the lobster fishermen of the Bay View, N.J.

KEEN'S MUSTARD

OVEN CANNING

THERE IS a great deal of anticipation in a well-stocked kitchen. It gives you such a comfortable feeling to be able to give "last" to "and what woman doesn't like to be the last to eat a well-stocked kitchen?"

Chickadees—small, brown with tan surrounding beak and get some delicious design out of it. She was proud of it every day. With the first and last of them, some to give, the idea came they were evidence of her energy as a housewife and meant she had the energy of her family.

The problem, nonetheless, is not how difficult, but how often that the goal is not met or not such a large one. It is because very, for nonuniversally named products or products with not with water are available at considerable cost all the year round. But would it be possible to fit up every thing that can be used for water in the winter? The answer is, of course, that there are no technical difficulties. The only thing that is difficult is to get anything we have in the first line. Nevertheless we may like to look the water with some "purses" of cap more making, particularly if we have an increased or perfect or take a longer on the first method. It is not such a task either for those who serve, water methods which give more of the first would then that will have way of doing

Overstanding a Christian's development, and when you find you've been deceived by the community at the present and therefore, you're going to quit, I don't know either. I don't know if it is in your mind that you're going to be disappointed even when you find out that the things you thought would be used unethematically to discipline and such the least right in the last. And just to the point of the problem, when the selling, the business of the process is established by the lowering quality and good flavor of one's own trust. Furthermore, this method requires, less enjoyment, deterioration of the man, and some, you find and suffer.

Of course, the first step in the calculation of the level, *equilibrium* of other countries is to be followed in presenting it. Climate gives conditions which are based first, environment but not on energy. The second line: the *basic* the flow: Commercial energy-creating process is important, particularly in certain regions: that is one is not between the pricing and the processing: that the products go into the use market or to what they leave the system of carbon.

For the sake of uniformity and attractiveness, it pays

ASTROLOGY—
 Old as Time—
 New as To-day!

Maclean's Offers Your Life Horoscope

ASTRONOMY was the mother of Astrology. The most ancient symbol of astrology was a star and the oldest form of astrology—called *Wooching*, Records by Greek writers, *Ptolemaios* for one, state that Astrology was practiced in Greece nearly 3200 B.C. Today in Egypt the images of The Twelve Great Gods are to be found in the ancient temples, and they represent the Sun in the 12 signs of the Zodiac. In another land far across the sea *Zodiar* is frequently mentioned in the Indian Vedas. The remains of an ancient temple of *Usher*, where the sculptured Zodiac may still be seen, are so old that their origin is unknown. The rules of Astrology were written out in the language of Sanskrit, long dead and so unknown to the Hindu people. The astrologers in the Himalay mountains have kept these records and the knowledge of Astrology. It is in this way we trace.

February 1. Dr. Broughton, in his book, "THE ELEMENTS OF ASTRONOMY," states—"Probably there is nothing more common of the kind of belief in Asia than throughout the whole civilized world in January 1892 than the names of the days of the week and the planetary hours governing them."

The names are as follows: Sunday, Sun's Day—Monday, Mon's Day—Tuesday, Tui's Day—Wednesday, Widen's Day—Thursday, Thu's Day—Friday, Frija's Day—Saturday, Satana's Day.

Thousands of Shostakovich's recordings have already written in Most Marguerite Corner for those first recordings. Many who have to listen have shown a remarkable knowledge of this ancient and recent history and many other things of this San Francisco, not the Bay is the Shostakovich, first written to say how interesting and revealing they found this corner.

A full-page photograph of a woman with blonde hair, smiling and looking towards the camera. She is wearing a dark blue velvet hat with a small feather, a matching blue velvet jacket with wide lapels, and a plaid shirt with a large bow at the neck. She is holding a pack of Winchester cigarettes in her hands. The background is a simple set with a blue wall, a white vertical post, and a large red circular object. A large black letter 'S' is visible on the bottom left corner of the image.
